EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Mike Steger on 12/8/2009.

Replace the Abstract with the following:

--A discharge container that discharges an appropriated amount of a creamy cosmetic, medical supply, or the like. The discharge container may include a cylindrical body and a cylindrical lid with a top. The lid covers an opening, and is rotatably engaged with the opening. A top wall portion of the top is brought into sliding contact with an upper end surface of a rotatable partitioning plate such that any contents in the discharge container are pressed by relative rotation between the container body and the lid, resulting in the contents being discharged through a discharge opening provided on the top wall.--
